

The logo for 'till' features the word in a bold, dark blue, italicized sans-serif font. It is centered within a bright yellow circle, which is itself set against a solid orange-red rectangular background.

till

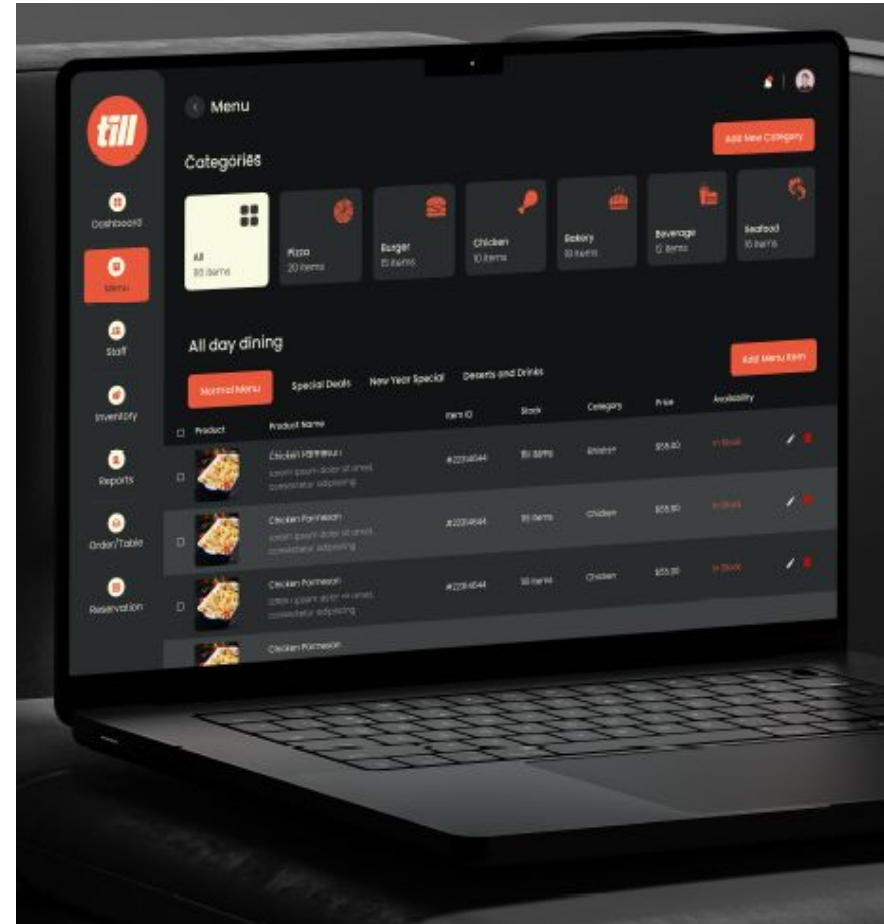

**BUILT FOR
RESTAURANTS**

from tables, to kitchen, to payments

Introduction

Till is a next generation CloudPOS platform built for restaurants and retail, designed to run seamlessly on Android POS payment terminals.

It brings together a comprehensive suite of Front of House and Back of House tools while layering in an intuitive AI-driven intelligence engine that simplifies operations, boosts efficiency, and unlocks smarter decision-making.
